

The Square News

2nd Floor Poured - 3rd Floor Deck is being Framed! (10/10/16)

The new Washington Square is on track with a very aggressive (yet achievable) schedule:

- 2nd Deck Poured by Oct. 10th
- Super-Structure completed by Jan. 2017
- Project completion Nov. 2017

Interest in the 22 Luxury Condominiums remains high. (Over 40% of the square footage is already spoken for.)

We're getting emails weekly from people around the country that are interested in relocating and/or moving back to the downtown Sioux Falls area.

Anyone who's interested should drop an email to the info@washingtonsquaresf.com address. We'll email you the marketing booklet with floor plans and other existing information.

- 8 Stories
- 3 Levels of On-Site Parking
- 2 Commercial/Retail Spaces
- 1 Level of Office Space
- 22 Luxury Condominiums
- Rooftop Owner's Terrace

Today they poured the concrete on the parking ramp going up to the 2nd level of public parking.

Concrete mixing trucks constantly alternate loading the massive pumper as the 2nd floor is being poured (10/10/16). Over 25,000 square feet of concrete per floor. That's over 10x the average home size built last year.
